

HARRIS PRIMARY SCHOOL

YEAR1 NEWSLETTER

Week ending 23rd May 2025

This half – term in Year 1 has come to an end and we can honestly say the children are working harder than ever and really achieving great things. We have been busy firstly with our class assembly which you might agree the children did AMAZINGLY! Myself and Miss Wilkinson were extremely proud of them all. As half – term approaches us, we hope that you enjoy the break and re – charge for Summer 2 term.

What we have learnt...

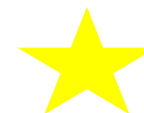

In English we have been working super hard on our Supertato stories. The children have been reading the story maps and changing their characters for their independent write. The children have excelled themselves with the amount and quality they have achieved this week. In maths we have been looking at measuring in millilitres and litres and estimating how much each container will hold. We took advantage of the nice weather and took our learning outside. We have also been looking at position and direction and guiding our friends across the playground only using directional commands. We have even worked on quarter turns. We had a great time spinning around in the carpet 😊 In science we have been looking at all thing plants. We have been on a school walk to see if we could spot any wild flowers in the KS2 playground and the KS1 garden area. We drew some of the flowers to put in our books. We have also been looking at both evergreen and deciduous trees. We have started to grow our own pea plants which will be heading home today. I have told the children if they want to send me pictures of their plant or peas (if they survive) to send them in an email. Our trip to Barton Grange was a great success the children got to plant their own sunflowers, smell all the herbs and even see all the different types of seeds. The fruit salad making was a fun day for all. The children loved being able to use the knives and try to cut their fruit using the different techniques we have been learning. I think their favourite part was eating them all. We all even got to try a dragon fruit, this was a first for both me and Mrs Wilkinson. It was lovely to see the children trying something different or new.

We hope you have a great half - term and stay safe.

Year 1 Team 😊 Independent

Things to Remember:

- Children need their book bags and reading packs everyday
- Please can we make sure all children come to school with a water bottle
- Children need to bring at least a jumper into school, just in case the weather changes
- Enjoy the half term
