UPDATES	<u>BOOKSALE</u>	<u>UKRAINE</u>	<u>PARKING</u>
	<p>Thank you to all of you who donated and bought books from our Parent's Evening Book Stall. We raised a grand total of £150! Well done to our Y6 children for doing a super job of organising this.</p>	<p>We have been overwhelmed with your generosity of donations for the Ukraine Appeal. A final delivery will be made next Monday so we will not be taking any more donations at present. Thank you for your donations!</p>	<p>We have had a number of complaints recently about families parking fully on the pavement or across people's driveways. Please park considerately to keep everyone safe and to avoid any penalty notices. Please also refrain from using the Staff Car Park at all times, with the exception of pre-arranged Blue Badge holders. This is to allow staff to park safely and also to keep all pedestrians safe.</p>

How to safely return to your normal routine before 10 days

If your day 5 LFD test result is positive, you can continue taking LFD tests until you receive 2 consecutive negative test results.

Children and young people with COVID-19 should not attend their education setting while they are infectious. They should take an LFD test from 5 days after their symptoms started (or the day their test was taken if they did not have symptoms) followed by another one the next day. If both these tests results are negative, they should return to their educational setting if they normally attend one, as long as they feel well enough to do so and do not have a temperature. They should follow the guidance for their educational setting.

Avoid meeting people at higher risk of becoming seriously unwell from COVID-19, especially those with a severely weakened immune system, for the 10 days after your symptoms started (or the day your test was taken if you did not have symptoms).
